	<p>years with highly reputed names (Formal POs / WOs) across Industries and across Geographies.</p> <p>Consists of onsite and offsite (report preparation) work with absolute precision to deliver a Comprehensive Report.</p> <p>This is Internationally accepted standard working methodology to ensure Project success.</p>	(modules, inverters etc.)
Why is it required	<p>Majority of the installed captive Solar projects in India i.e. more than 70% are facing performance issues i.e. output lesser than designed or projected output. Nearly 60% of the projects are facing non-performance issues related to Contractual and Financing of the project. For eg. some Companies were not aware of all the financial models available.</p>	<p>For a very basic understanding of Solar.</p> <p>This exercise cannot be used or trusted to make a strategic decision for a Solar Project which has a life of 25+ years.</p>
Benefits	<p>Empowers you with all the information required to make a sound and informed decision with confidence after detailed understanding of all financial models + techno-commercial & regulatory aspects to avoid any future pitfalls.</p>	General information.
Recommendation	<p>Is recommended for Companies –</p> <ol style="list-style-type: none"> 1. Looking to reduce their energy bill 	Is recommended for Companies which are only
